### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Applicants claim a liquid crystal polymer composition comprising 100 parts by weight of a liquid crystal polymer (A) and 5-100 parts by weight of a plate-shaped filler (B) wherein the plate-shaped filler satisfies the following formulae (1) and (2) and has an average particle diameter of 0.5-100 $\mu$ m. Applicants state that in the course of this invention it was surprisingly discovered that molded articles formed from liquid crystal polymers display improved resistance to warpage when filled with plate-shaped fillers that meet the parameters specified in detail in Applicants' claims. Applicants have further made a declaration of such information. Examiner agrees that such concept is totally lacking in the reasonably derived teachings of the prior art and therefore claims 1-18 and 20-21 are allowed.

### *Conclusion*

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
